

BUTANE-PROPANE TORCH

Industrial Jet Torch

PART No. 1811620
BROMIC INDUSTRIAL JET
TORCH KIT

This Industrial Jet Torch Kit includes a versatile jet torch ideal for heating, soldering, heat shrink, paint stripping, lighting charcoal and hospitality applications. Powered by butane-propane mix, this provides 20% faster heat transfer than butane. The butane-propane jet torch has an industrial grade turbo flame with adjustable flame control. This kit comes complete with a 330g butane-propane cylinder.

Features

- Industrial jet torch
- Flame type: Jumbo/Jet flame
- Can be used on angled & upside down position
- Piezo ignition with lock on function
- Trigger-start for easy ignition
- Child lock
- Screw on 7/16" fitting (EN417)
- Kit includes jet torch and 330g Bromic disposable butane-propane mix fuel cylinder
