

SOLDERING ACCESSORIES

Regular Soldering Flux Paste

PART No. 1711881
 LACO REGULAR SOLDERING FLUX PASTE
 113G

PART No. 1711882
 LACO REGULAR SOLDERING FLUX PASTE
 56G

LA-CO Regular Flux is the ultimate flux for all copper soldering applications. The all-weather water-soluble paste won't leave residue in water piping and contains no zinc chloride to reduce corrosion concerns. Available in 56g, 113g and 453g sizes.

Features

- Non-acid, non-toxic, and lead-free
- For use on all lead-free and common soft solders, copper, brass, galvanised iron, lead, zinc, tin, silver, mild steel, terne plate, and malleable iron
- Cleans pipe upon application, allowing solder to run more smoothly around the pipe
- All-weather formula for use in hot and cold climates
- Made in USA

Application

- All lead-free and common soft solders
- Copper
- Brass
- Galvanised iron
- Lead
- Zinc
- Tin
- Silver
- Nickel
- Mild steel
- Terne plate
- Malleable iron
