

WELDING GAS

2.2L Disposable Cylinders

PART No. 1811523
BROMIC ARGON/O2
CYLINDER 2.2L

PART No. 1811525
BROMIC ARGON/CO²
CYLINDER 2.2L

PART No. 1811524
BROMIC ARGON
CYLINDER 2.2L

The Bromic range of disposable Welding Gas Cylinders offer the highest pressure cylinder available on the market. Best used in welding applications including MIG welding aluminium, general TIG welding, and mild steel welding.

Available in 2.2L sizes.

Features

- M10x1 thread connection
- Working pressure: 110bar
- Highest pressure disposable cylinder on the market, means more gas
- Made in Italy
- Compact portable and lightweight

Gas Types Available

AR/O² (98/2)
AR(86/14)/CO²
Argon

Application

- Various welding applications
